PROFILE

Passionate about continuous learning and innovation. Highly motivated, adaptive and organized individual seeking an entry-level position in the Software industry. Possess excellent teamwork, problem-solving, and communication skills. Dynamic Software Developer with Strong Understanding of Programming Technologies, and Collaborative Approach for Multitasking Projects.

WORK EXPERIENCE

Designing Secure and Efficient Biometric Based Secure Access Mechanism for Cloud Services

- We developed a novel biometric authentication protocol for secure remote server access, utilizing user biometric data as a secret credential to generate unique identities and private keys.
- Ø An effective way to transmit the user's biometric data through the unsecured network channels to an authentication server is presented.

Frontend Developer (Intern)

- Developed responsive website layouts using HTML, CSS, and JavaScript.
- Deployed website online using GitHub pages.
- Structured web pages using reusable components for maintainability.
